- Ideal for filling minor surface cracks and imperfections.
- Ideal for indoor applications.
- Suitable for concrete and plastered walls & ceilings

INDUSTRIAL PAINTS الدهانات الصناعية

Industrial Paints

At Middle East Paints Factory, we offer a comprehensive range of high-quality industrial paints (**Polyurethane, Epoxies and Enamel Paints**) specially designed to meet the protective and durability needs of various industrial sectors. We focus on providing innovative coating solutions with exceptional performance features that offer long-lasting protection for metal and concrete surfaces.

Unique Features of Our Industrial Paints

Exceptional Reliability: All our products are designed to withstand harsh conditions such as humidity, chemicals, and high temperatures, making them an ideal choice for industrial protection.

Siliconates Paints (Rust Protection Primers): We provide high-performance siliconates paints that act as a primer layer to protect metal surfaces from rust and corrosion, enhancing the durability of metallic assets in challenging industrial environments.

Superior Epoxies: Our epoxy coatings offer unparalleled protection, including Epoxy Primers designed to ensure excellent adhesion and optimal preparation for topcoat layers. We also provide Epoxy for Metal, the perfect solution for protecting metal structures in factories and large facilities.

Global Quality Standards: All our products are manufactured according to the highest global quality standards to ensure protection and durability in the most demanding industrial environments.

Types of Industrial Paints

HardShell Epoxy Floor Sealer Clear EP

51: A two-component polyamide-cured transparent epoxy sealer for concrete industrial protection.

HardShell Epoxy High Gloss Clear EP 805 :

A two-component, polyamide-cured epoxy high gloss clear coating.

HardShell Epoxy High Gloss Enamel EP

804: A two-component, polyamide-cured epoxy high gloss coating in factories and large facilities.

HardShell Epoxy Metal Primer EP

50: A two-component polyamide-cured epoxy primer is suitable for properly prepared steel substrates.

HardShell Hi-Build Epoxy EP 801:

A two-component, polyamide-cured epoxy Hi-Build coating.

Varnishes

Clear and pigmented wood varnishes with excellent durability and adhesion, high film build enhances the wood and grain colour. These varnishes are formulated to protect wood surface against climate, salts, water and local temperature.

Wood Glue

Middle East Glue, made from polyvinyl acetate, is extremely easy to use. It provides high adhesion strength and is suitable for cement, wood, paper, and cardboard.

SOLVENTS

Hot Thinner

Hot Thinner is your reliable partner for the effective thinning and cleaning of oil-based paints and varnishes. With its high-performance formula, Hot Thinner ensures exceptional results and smooth application, making it an essential product for professionals and serious DIY enthusiasts.

Why Choose Hot Thinner?

High Dissolving Power: Provides quick and effective dilution, ensuring the perfect consistency for oil-based paints and varnishes.

Smooth Application: Assists in easy paint flow, achieving an even, flawless finish every time.

Reliable Cleaning Agent: Ideal for cleaning brushes and tools after use, helping maintain their quality and extend their lifespan.

Superior Performance: Designed to handle large projects and deliver results that meet professional quality standards.

Cold Thinner

Cold Thinner is the ultimate solution for efficiently and safely thinning and cleaning water-based and industrial paints. With its advanced formula, Cold Thinner ensures impressive results, striking the perfect balance between high performance and ease of use, making it the ideal choice for both professionals and DIY enthusiasts.

Why Choose Cold Thinner?

Professional Results: Provides precise and smooth thinning of paints, ensuring an even and flawless application.

Effective Cleaning: Quickly and easily cleans brushes and tools, extending the life of your equipment and ensuring it's ready for use every time.

Safe and Easy to Use: Developed to provide a seamless and safe user experience, making it perfect for various projects.

Versatile Applications: Whether you're working on a small home project or a large industrial job, Cold Thinner is your go-to partner for success.
